

# Aslam Muhammed, Senior Software Developer

Abu Dhabi, UAE | +971 508024425 | aslammhdms@gmail.com | www.linkedin.com/aslammhdms

## SUMMARY

---

Dynamic Senior Software Developer with over 4 years of experience in crafting and supporting .NET web and mobile applications. Proficient in HTML, CSS, Angular.js, and backend technologies including .NET Core and SQL Server. Successfully collaborated in project teams to ensure timely delivery, while optimizing application performance through diagnosing technical issues. Experienced in ERP system optimization, enterprise retail solutions, and UAE-compliant business applications. Eager to leverage unique technical expertise in meeting client demands and enhancing project outcomes.

## WORK EXPERIENCE

---

### Software Developer | Al Madina Hypermarket LLC Abu Dhabi, UAE | Sept 2025 – Present

*Al Madina Hypermarket LLC operates a network of 19 hypermarkets and fresh markets across Abu Dhabi.*

- Leveraged Claude Code (AI-assisted development tool) throughout the software development lifecycle to accelerate coding, generate boilerplate, debug complex logic, and optimize SQL queries — significantly improving development speed and code quality across all projects.

#### Madina Insight – Competitive Pricing Analysis System

- Designed and developed a full-stack .NET 10 MVC web application to analyze competitor promotional flyers against the existing product catalog across multiple hypermarket branches.
- Built an intelligent product matching engine to identify pricing gaps and opportunities from competitor data, enabling data-driven pricing decisions for management.
- Implemented PDF/image upload and processing pipeline for competitor flyer ingestion, with SQL Server backend for historical trend analysis.
- Technologies: .NET 10 MVC, C#, SQL Server, Entity Framework Core, HTML/CSS, JavaScript.

#### Facility Management System – IT Asset & Service Ticketing

- Built a comprehensive IT asset management system covering hardware/software inventory tracking across all branch locations.
- Developed a service ticketing workflow with role-based approval processes, enabling staff to log, escalate, and resolve IT issues with full audit trails.
- Integrated barcode scanning functionality for asset tracking and lifecycle management across multiple branches.
- Implemented role-based access control (RBAC) to ensure appropriate permissions for administrators, technicians, and end-users.
- Technologies: ASP.NET Core MVC, C#, SQL Server, Entity Framework Core, Barcode integration.

#### Mobile Application Development

- Developed a price-checking mobile application for Zebra handheld devices used by floor staff to verify product prices and stock information in real-time.
- Worked on updates and enhancements to Al Madina's customer-facing retail mobile app, improving product browsing and promotional offer visibility.
- Integrated mobile apps with the GravityRP ERP backend via RESTful APIs for live inventory and pricing data.
- Technologies: React Native, RESTful APIs, SQL Server, Zebra SDK.

### Senior Software Developer | Skien Labs Trivandrum, India | Sept 2023 – Sept 2025

- Engineered and sustained professional .NET web and mobile applications for business clients.
- Utilized HTML, CSS, Angular.js, and jQuery for frontline web application development.
- Executed .NET Core 6, C#, .NET MVC, Entity Framework, and SQL Server for robust backend solutions.
- Collaborated with a team of developers to ensure the timely and budget-compliant completion of projects.
- Diagnosed technical issues and delivered technical support for optimal application performance.
- Developed Skien.Suite, a comprehensive ERP solution, integrating core business modules for seamless operations, collaboration, and efficiency.

- Contributed to Skien.eCommerce, designing AI-driven applications that enhance user experience and drive revenue.
- Built scalable solutions for B2B, B2C, and enterprise eCommerce platforms, improving online visibility and sales.

#### **Onsite Support | FOODWORLD Bahrain** May 2023 – Feb 2024

- Administered onsite support to ensure seamless application performance while resolving technical issues.
- Facilitated data correction and added necessary data to maintain accuracy and compliance.
- Collaborated with the client to implement fixes, optimize performance, and enhance system efficiency.
- Ensured efficient communication between the client and the development team to deliver timely solutions.

#### **Software Developer | SKIEN LABS** Trivandrum, India | Oct 2021 – Sept 2023

- Engineered and maintained .NET web and mobile applications for business clients.
- Developed and enhanced front-end applications using HTML, CSS, Angular.js, and jQuery.
- Built backend solutions with .NET Core 6, C#, .NET MVC, Entity Framework, and SQL Server.
- Worked closely with the development team to ensure high-quality, timely project deliveries.
- Assisted in troubleshooting, debugging, and resolving software issues.

### **EDUCATION**

---

**Bachelor of Computer Application** – University of Calicut, Perinthalmanna, India | Mar 2018 – Mar 2021

**Secondary School** – Vivekananda Vocational Higher Secondary School, Poredom | Mar 2016 – Mar 2018

### **SKILLS**

---

.NET Core / .NET 10 | ASP.NET MVC | C# | Entity Framework Core | SQL Server | T-SQL | Database Optimization | RESTful APIs | HTML | CSS | JavaScript | Angular.js | jQuery | Web Services | Mobile App Development (.NET MAUI) | Agile Methodologies | Code Reviews | IIS Deployment | ERP Systems | Barcode Integration
